

Quarterly Report

For the 3 Months ended September 2020

This Quarterly Report updates activities undertaken during the period 1 July 2020 to 30 September 2020.

1. PROJECTS

Savoy Hill Coal Project (100%)

The application for renewal of the Savoy Hill tenement, Exploration Licence 6812 (**EL 6812**) is pending approval and following the standard department process for approval. The application was lodged with the Department of Planning and Environment, Resources and Geosciences, on 19 June 2018.

In accordance with the licence conditions of EL 6812, an Annual Report was completed and lodged with the DRG on Friday 17 July 2020. The Annual Report was assessed and accepted for archiving on 9 September 2020.

2. NUCOAL'S LEGAL CASES

Background

On 31 January 2014, the NSW Government passed the *Mining Amendment (ICAC Operations Jasper and Acacia) Act 2014* (NSW) (**Mining Amendment Act**), cancelling Exploration Licence 7270 (**EL 7270** or **Licence**) with no compensation payable to NuCoal or its shareholders. The legislation was passed following an inquiry by the Independent Commission Against Corruption (**ICAC**).

Since the passing of the legislation, NuCoal has continued to implement a legal and political strategy, both domestically and internationally, to seek redress for shareholders following the unfair and unjust cancellation of EL 7270 by the NSW Government.

Domestic Efforts

The Standing Committee on Law and Justice (**Standing Committee**) considered a bill introduced by the Hon. Rev Fred Nile, the *Mining Amendment (Compensation for Cancellation of Exploration Licence) Bill 2019* (**Compensation Bill**), during the second half of last year. Following a detailed process, the Standing Committee tabled its report with the Clerk of the Parliaments on

30 October 2019. The report was made publicly available via the Standing Committee website on the same day.

As outlined in the report, the Committee provided the following recommendations:

- **Recommendation 1** – That the *Mining Amendment (Compensation for Cancellation of Exploration Licence) Bill 2019* not proceed in its current form.
- **Recommendation 2** – That the NSW Government address the outstanding matters raised during this inquiry, where appropriate, including the issue of compensation for innocent shareholders.

As is standard protocol, the NSW Government was required to formally respond to Parliament within 6 months of the Standing Committee's report being published. On 30 April 2020, NuCoal received a copy of a letter from the NSW Attorney General, Mark Speakman, addressed to the Clerk of the Parliaments. The letter acknowledges the Standing Committee for their efforts, notes that the Government supports the Standing Committee with respect to Recommendation 1 (as noted above) and further notes that the position of the Government is reserved with respect to Recommendation 2 (also noted above).

Since receiving the correspondence NuCoal has continued its representations to the NSW Government. A follow-up letter was sent to the NSW Attorney General, Mark Speakman, dated 8 May 2020 asking what the next steps will be in this matter and further letters and requests to relevant members of NSW Parliament have continued. All representations request an opportunity to meet and discuss the matter with a view to obtaining a mutually agreed compensation position.

[Shareholder communication](#)

In May 2020, NuCoal sent out an email broadcast to shareholders who have an email address registered against their shareholding requesting assistance from them to contact relevant NSW State Government Cabinet Ministers to voice their ongoing concerns and to seek an update on compensation.

We have received a number of replies from shareholders who have contacted the NSW Government and we encourage all shareholders to make contact. If you would like to assist with the ongoing efforts for compensation the link below contains a list of Cabinet Ministers that you can contact.

If you require any further information or assistance in preparing your correspondence, please feel free to get in contact with NuCoal directly.

[Committee on the Independent Commission Against Corruption](#)

On 8 May 2020, the Committee on the Independent Commission Against Corruption commenced an inquiry into the reputational impact on an individual being adversely named in the ICAC's investigations. The terms of reference for the Committee are noted below:

"That the Committee on the Independent Commission Against Corruption (ICAC) inquire into and report on the reputational impact on an individual being adversely named in the ICAC's investigations, with particular reference to:

- whether the existing safeguards and remedies, and how they are being used, are adequate, and*
- whether additional safeguards and remedies are needed, and*
- whether an exoneration protocol should be developed to deal with reputational impact, and*
- relevant practices in other jurisdictions, and*
- any other related matters."*

The Committee is accepting submissions until Friday 31 July 2020. NuCoal is preparing a submission for lodgement.

NuCoal's submission will point out that damage to the reputation of individuals is only one impact of ICAC's investigations, with NuCoal's shareholders having incurred huge financial loss as a result of the fundamentally flawed Acacia investigation and ICAC's recommendations. Accordingly, an exoneration protocol that only deals with reputational damage to individuals is totally inadequate. NuCoal's view is that damage caused by ICAC can only be corrected by providing damages commensurate with the damage done and in an appropriate form and quantum.

International Efforts

The Company is continuing to pursue claims against the Australian Government on behalf of U.S. shareholders under the Australia US Free Trade Agreement (**AUSFTA**). This potential international action is being progressed with a view to obtaining compensation from the Australian Government for the decision by the NSW Parliament to expropriate EL 7270 without payment of compensation.

With respect to the Compensation Bill – a number of US shareholders lodged individual submissions with the Standing Committee. In addition, the Company is aware that the USTR made fresh representations to DFAT around the time of the Committee hearings which reiterated its ongoing desire to resolve the claims of its NuCoal shareholders under the AUSFTA and which cited the proposed Compensation Bill as a potentially suitable way to resolve the matter.

Non-Executive Director, Glen Lewis visited Washington DC in February 2020 and met a number of US Government politicians and officials to update them on the status of the Company's compensation efforts.

As previously communicated, shareholders should note that any successful action directly under the AUSFTA will benefit only the shareholders who bring and participate in the action (ie. US shareholders in NuCoal who held shares at the time of expropriation).
